Classes are free and no pre-registration required.

FALL VEGETABLE GARDENING:
EXTENDING YOUR HARVEST
Saturday, August 16th 1:00 - 2:30 pm (Morgan Room)
Wednesday, August 20th 6:00 - 7:30 pm (Morgan Room)

Vegetable gardening for the year does not have to end when the tomatoes and cucumbers do! This workshop will focus on strategies and timing to maximize yields and extend the harvest from your vegetable garden by growing fall and winter crops. We’ll talk about season extenders and other tips and techniques to keep your garden producing well past the first frost.

SUSTAINABLE LAWN CARE - A GREENER YARD
Saturday, September 13th 1:00 - 2:30 pm (Story Room)
Wednesday, September 17th 6:00 - 7:30 pm (Morgan Room)

Fall is the best time for rejuvenating lawns - and also to discuss how knowing and using good growing practices all year saves you time and money and reduces environmental impact. Establishing a healthy stand of grass with good planning and careful management can minimize issues with weeds, diseases and insects. You can have a healthy lawn and still reduce the impact and expense of lawn chemicals.

COMPOSTING AND VERMICOMPOSTING - RECYCLING WITH NATURE
Saturday, October 18th 1:00 - 2:30 pm (Morgan Room)
Wednesday, October 29th 6:00 - 7:30 pm (Morgan Room)

What to do with all those leaves?! Composting is a great way to recycle, and it also produces a fantastic organic amendment that improves the fertility and texture of your soil and helps everything grow better. We will discuss easy ways to start composting in your own backyard, and what should or shouldn’t be composted. We’ll also go over the to-do list for having a successful “worm bin” at home.

North Carolina State University and North Carolina A&T State University commit themselves to positive action to secure equal opportunity regardless of race, color, creed, national origin, religion, sex, age, or disability. In addition, the two Universities welcome all persons without regard to sexual orientation.
