SEPTEMBER 20TH — FALL IS FOR GARDENING: WHAT SHOULD I DO NOW?

Spring and summer gardens are beautiful, but fall is a wonderful season for gardening in the Piedmont! This is the perfect time for planting, transplanting, and starting fall-flowering containers - after the long hot summer, cooler temperatures make it easier on the plants and on the gardener too. Simple seasonal chores like winterizing tools are also on the list, to help you be prepared for future gardening seasons.

OCTOBER 25TH — SPRING FLOWERING BULBS

For beautiful flowers in spring, plan ahead and plant some bulbs after the first autumn frost. Flowering bulbs like daffodils, hyacinths, and crocus are among the earliest flowers every year -some even start to bloom as early as January! Bulbs can be planted in flower beds, in lawns, under and around trees, or grown in containers - many will come back and even multiply for years of beauty with minimal care.

NOVEMBER 8TH — COMPOSTING AND VERMICOMPOSTING: RECYCLING WITH NATURE

What to do with all those leaves?! Composting is a great way to recycle, and it also produces a fantastic organic amendment that improves the texture and fertility of your soil and helps everything grow better. We will discuss easy ways to start composting in your own backyard, and what should and shouldn't be composted. We'll also go over the easy steps for having a successful "worm bin" at home.
