AUGUST 15TH

FALL VEGETABLE GARDENS: EXTENDING YOUR HARVEST

End of summer is the time to plan and plant for your garden's third productive season! Vegetable gardening for the year does not have to end with the tomatoes and cucumbers. Let's talk timing, to maximize your garden's yield with fall and even winter crops. We'll also discuss season extenders and other tips and techniques to keep your garden growing well past the first frost.

SEPTEMBER 19TH

FALL IS FOR GARDENING: WHAT SHOULD I DO NOW?

Spring and summer gardens are beautiful, but fall is a wonderful season for gardening in the Piedmont! This is the perfect time for planting, transplanting, harvesting, and starting fall-flowering containers - after the long hot summer, cooler temperatures make it easier on the plants and on the gardener too. Simple seasonal chores like winterizing tools are also on the list, to help you be prepared for future gardening seasons.

OCTOBER 24TH

COMPOSTING AND VERICOMPOSTING: RECYCLING WITH NATURE

What to do with all those leaves?! Composting is a great way to recycle, and it also produces a fantastic organic amendment that improves the texture and fertility of your soil and helps everything grow better. We will discuss easy ways to start composting in your own backyard, and what should and shouldn't be composted. We'll also go over the easy steps for having a successful "worm bin" at home.
